

KHASH-ERDENE GANKHUYAG

AN INTRODUCTION

I COME FROM MONGOLIA

Administrative map of mongolia

Capital: Ulaanbaatar

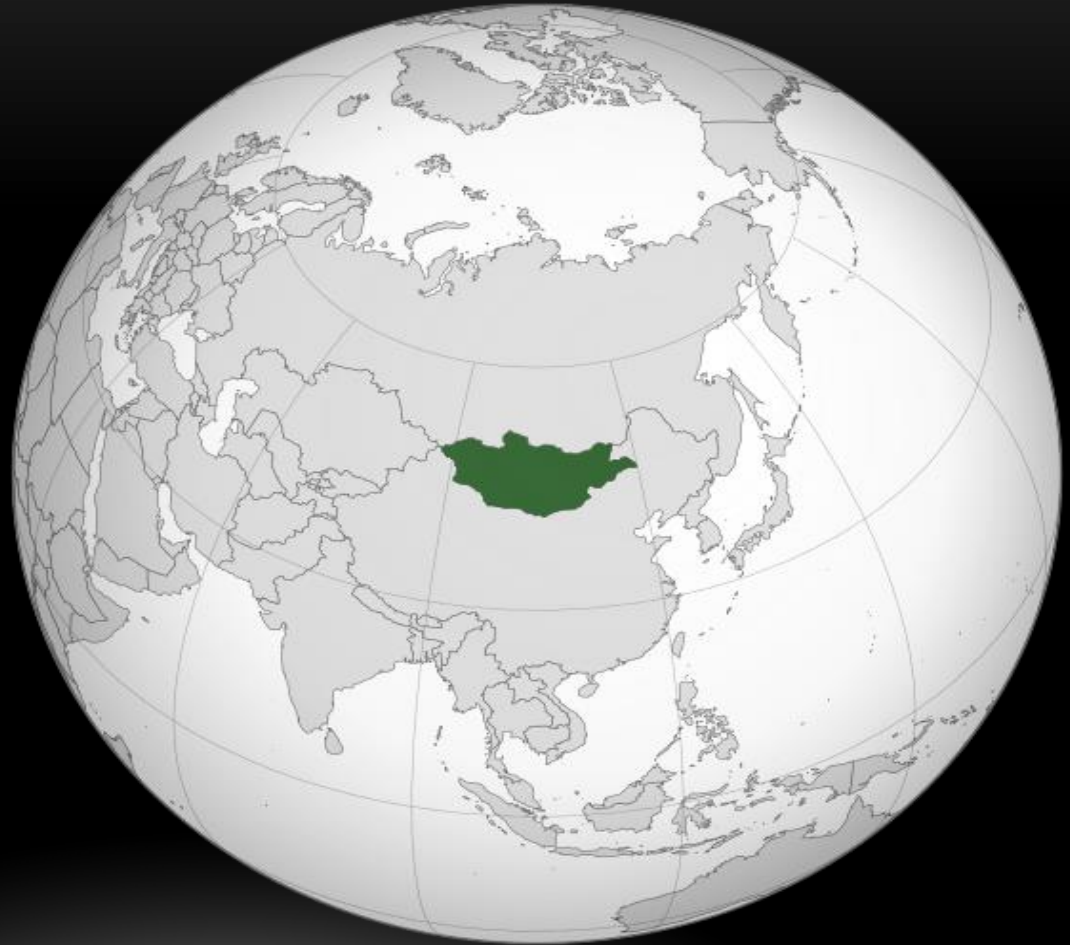

Official languages:
Mongolian

Area: 1,566,000 km²

Population: 3,081,677

Currency: Tugrug

Time zone: UTC+8

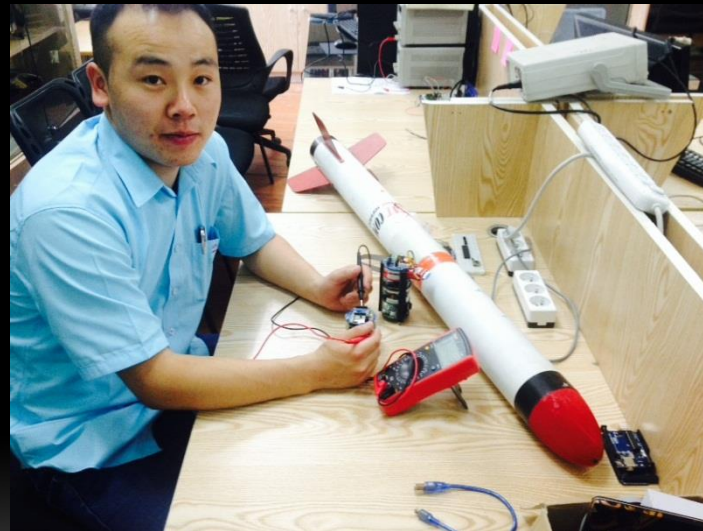

RESEARCH

I'm studying Master course in laboratory of Remote sensing and Space science National university of Mongolia.

My present research interest is space engineering design of real satellite.

WORKED IN

I am automation engineer in APU COMPANY.

We are one of the leading liquid food producer since 1924 in Mongolia and we are specialized on the production of following product types:

Spirit

Vodka

Beer

Juice

Soft-drink (CSD)

Water

Carbonated water

Flavored carbonated water

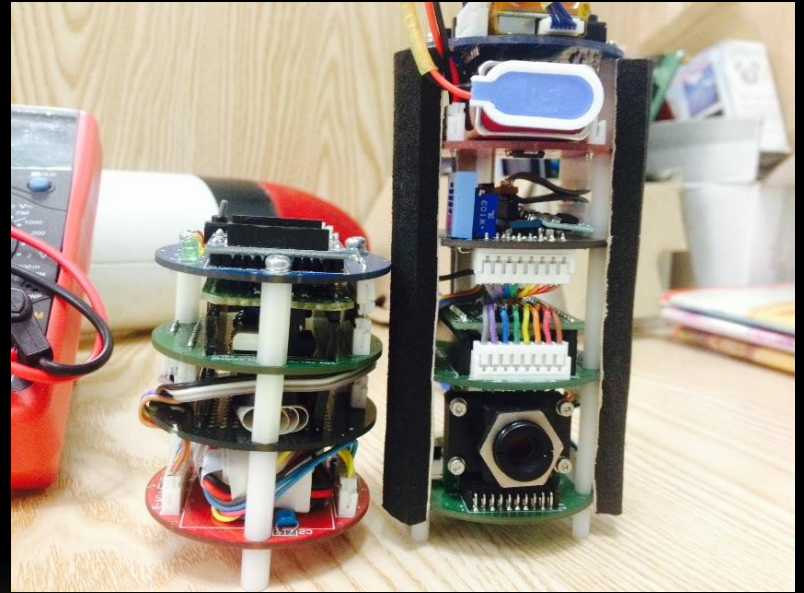

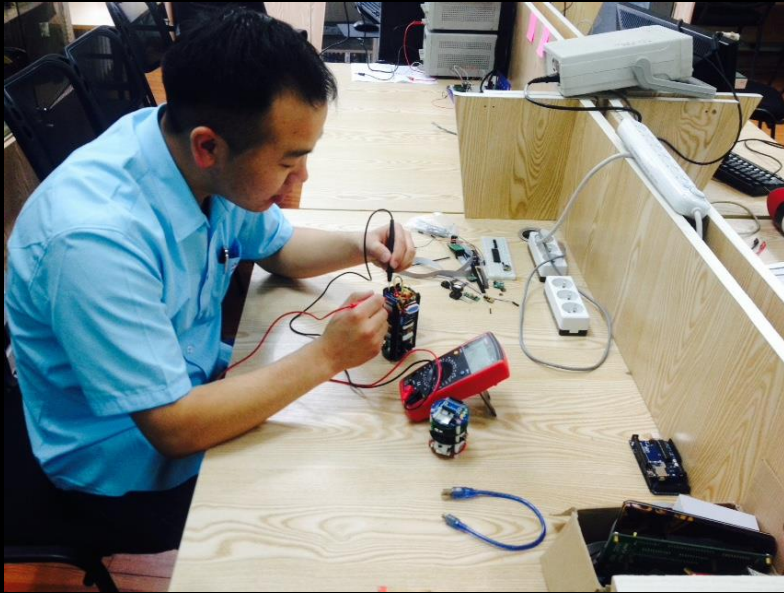

Fresh milk

Yoghurt

Sour crème

CANSAT EXPERIENCE

CANSAT EXPERIENCE

EXPECTATION/ PLANS

- The satellite technology is not developed or spread enough in Mongolia. So there is need of engineers for the technology development. I hope I will work as a space engineer in the future
 - Learn technical aspects of Cansat/Cubesat
 - Learn systematic training methods
-

THANK YOU FOR YOUR ATTENTION
